

Printer Cartridge Recycling Program

The PTO sponsors the Printer Cartridge Recycling Program at DCA through **CARTRIDGE WORLD**. By collecting and turning in empty inkjet and laser cartridges, our school earns money for ALL types of printer cartridges.

Bring your used printer cartridges from home and work to the collection box near the elementary office just outside the cafeteria doors. You can also drop your cartridges off at the Cartridge World store near O'Charley's in the Northlake Shopping Center across from Summit Hospital if that is more convenient for you, especially if you need to purchase any of their recycled cartridges at an approximate 50% savings to replace the ones that you are turning in. Just let them know that you are turning them in for DCA, and the school will receive credit for them.

What an easy way to help the PTO help our school!

Contact the DCA PTO Parliamentarian for more information about DCA's involvement in this program.
