

The Outdoor Academy of the Southern Appalachians
SECOND LANGUAGE ASSESSMENT

Dear Sending School Language Teacher,

_____ is attending The Outdoor Academy during the coming _____ semester and has signed up for _____.

Our second language courses follow an appropriate unit of instruction for a semester using a textbook and other support literature standard for the language and level. Please be aware that although each class will cover the grammar necessary for all students to smoothly reintegrate into their respective home schools, we are unable to replicate any one student's entire home curriculum. You can help your student to make a smooth transition by preparing him/her to take the responsibility of keeping up with the vocabulary and readings that you will be doing at home while he/she is at OA. It would be beneficial for your student to bring a copy of his/her textbook from home.

In order to help us facilitate the transition between schools, please answer the following questions as completely as possible, and return this form to the student. The student will mail this to us with his/her other enrollment paperwork. We especially need to have a solid understanding of what the student has studied during their most recent semester and what your class will cover while the student is with us.

1. Please indicate the textbook and workbook(s) you use for this course:
