**SOUND COMMUNITY SERVICES SELECTS QUALIFACTS TO IMPROVE
OPERATIONAL PERFORMANCE AND TRANSPARENCY**

NASHVILLE, TN – Qualifacts Systems, Inc, a leading provider of web-based software for behavioral healthcare providers today announced that Sound Community Services has selected Qualifacts’ CareLogic software to improve operational performance and transparency across their organization.

“We chose Qualifacts because it offered us the greatest flexibility and reporting capability for all of our programs,” said Gail Lawson, Sound Community Services CEO. “Qualifacts will provide us with the data necessary to efficiently and effectively provide services to our clients.”

Sound Community Services, located in New London, Connecticut employs more than 140 professionals that serve approximately 2,500 clients a year across seven sites. They specialize in mental illness and recovery services for adults. Just some of the 10 programs Sound Community Services provides include case management, clinical services, employment services, and partial hospital and outpatient.

“We wanted an intuitive system that staff would easily transition to,” said Dr. Lawson. “We also wanted a system with a history of quality customer service. Qualifacts’ CareLogic product was the best fit for our needs.”

“We’re very excited that Sound Community Services has selected CareLogic for their enterprise software, said David Klements, President & CEO of Qualifacts. “We look forward to working with them”.

About Qualifacts

Qualifacts develops and delivers Web-based enterprise software for the behavioral health provider market. Its CareLogic™ product is a comprehensive, integrated clinical, financial, and administrative information management system which improves clinical workflow, revenue cycle management, and operational transparency.
