

DEEP DOO DOO UNIVERSITY

	ASPECTS	IMPACTS
Boiler		
1	Natural Gas Usage	Depletion of Natural Resources
2	Air Emissions	Air Quality Reduction
3	Boiler Blowdown	Water and Soil Contamination
4	Water Consumption	Depletion of Natural Resources
5	Energy Consumption	Air Quality Reduction & Depletion of Natural Resources
SERVICE BAY ---		
1	Oil Usage	Depletion of Natural Resources
2	Accidental Release of Oil	Water and Soil Contamination
Brakes		
3	Hazardous Materials Release	Water and Soil Contamination
Painting		
4	Air Emissions	Air Quality Reduction
5	Hazardous Waste Generation	Air, Water and Soil Contamination, Waste Management
6	Accidental Release of Haz Wastes	Air, Water and Soil Contamination, Waste Management
Tires		
7	Solid Waste Generation	Contamination of Land/Air/Water
8	Disposal of Tires	Waste Management
Parts Cleaner		
9	Accidental Release	Soil/Water Contamination
10	Haz Waste Generation	Contamination of Air/Water/Land, Waste Management
Anti-Freeze		
11	Accidental Release	Soil/Water Contamination
12	Haz Waste Generation	Contamination of Air/Water/Land, Waste Management
Electric Golf Carts		
13	Universal Waste Generation	Waste Management
14	Haz Waste Generation	Waste Management, Soil/Water Contamination
15	Energy Consumption	Air & Water Quality Reduction, Natural Resource Depletion
USTs		
16	Accidental Release of Oil	Contamination of Land/Water
Shop Lights		
17	Universal Waste Generation – Lamps	Waste Management
18	Accidental Release	Contamination of Soil/Water
