

## Mission & Vision

### **PURPOSE . . . to glorify God**

The ultimate purpose of New Hope Academy is to glorify God and to teach its students to do the same.

### **MISSION . . . to empower the poor**

New Hope Academy is a Christ-centered community school with an economically, racially, and culturally diverse student body. It exists to serve low-income families by establishing a solid Biblical worldview, instilling vision, confirming hope and preparing each young person for a life of service.

### **VISION . . . to transform culture**

New Hope Academy is dedicated to a unique educational experience, equipping children from all backgrounds to become a generation of leaders who will reflect our Creator and transform our culture. This vision is cultivated through the convergence of three commitments: the promise of excellent, classical education; the mission to the underprivileged; and the belief in connected, purposeful community.

### **The promise of an excellent, classical education**

New Hope Academy is committed to exceptional educational programs that establish for the students a solid Biblical worldview and cultivate wisdom by nourishing the soul on beauty, goodness, and truth. These educational programs purposefully serve to allow every student to reach his/her full potential. The methodology of our classical approach allows our teachers to serve as disciplers, mentoring the students, investing love and acceptance into their lives, and providing a level of security and stability. These relationships are foundational to students' growth academically, emotionally, and spiritually.

### **The mission to the underprivileged**

New Hope Academy is committed to the disadvantaged and underserved in our community. Providing this educational experience to low-income families is foundational to the school's mission. It is, therefore, intentional in the fact that nearly half the students it serves come from low-income families.

### **The belief in connected, purposeful community**

New Hope Academy provides the opportunity for students to form meaningful relationships across economic, racial, and cultural lines. Groomed in this loving, equity-promoting environment, each student discovers his/her unique gifts.

## Who We Are

**We are a community of hope.** We believe that changing our culture begins with understanding and that understanding takes place in genuine relationships. Separately, we remain impoverished and underprivileged—the poor and affluent alike. Together, we become empowered and enlightened lifting one another to a Christ-centered life.

**We are a community of vision.** We believe in building the bridges of brotherhood in our community and in our nation. We step forward to be counted as those who will dismantle the economic, cultural and racial walls that keep all people from excelling as citizens of this nation and as children of the King.

**We are a community of faith.** We are true believers called to shine the light of Christ into the darkest corners of despair illuminating every heart and mind with a new vision—a new hope.
