

COMPLIANT UNIVERSITY

Environmental Policy – Group 6

- To conform and be good stewards of environmental safety and conservation;
- Work with local community to reduce the college's environmental footprint;
- Reduce use of toxic substances in generation of waste;
- Train and educate college community regarding environmental aspects;
- Establish a recycling program in order to reduce landfill waste; and
- Reduce utility consumption.

Compliant University will fully comply with all laws and regulations to protect the health of the public and the environment.

REALLY GOOD UNIVERSITY (RGU)

Environmental Policy – Group 2

Date Born: 1/27/09

- RGU is committed to stewardship of our environment in all of our activities. We believe all individuals in the faculty, staff and student body are responsible for the way that our school impacts the earth we inhabit.
- RGU will consider full compliance with the law to be the minimally acceptable standard in evaluation our success.
- RGU will strive to:
 - Reduce our impact on the environment through:
 - Conservation and prudent use of resources;
 - Creation of environmental awareness; and
 - [Something else; it'll be a surprise].
- We will regularly assess our progress in achieving our goals.

DDU

ENVIRONMENTAL POLICY - Group 4

- Reduce landfill waste by practicing recycling initiatives;
- Work toward a campus that promotes public transportation and alternative transportation methods, i.e. carpooling, walking, electric vehicles, etc.;
- Strive to comply and exceed environmental laws and regulations;
- Strive to conserve natural resources whenever possible; and
- Establish environmental and sustainable purchasing policies.

TEAM 5

Environmental Policy

- Whole campus – multiple sites
- BATES POLICY – Boiler Plate
 - Delete research; and
 - Add M&M process as applicable.
- Strive to increase recycling of waste products
- Evaluate and implement cost/energy:
 - Alternatives for campus fleet;
 - Water consumption ideas;
 - Electric consumption ideas; and
 - Gas consumption ideas
- Reduce the carbon footprint
- Strive to work with environmentally friendly vendors
- Develop:
 - Training orientation processes for students, faculty, staff, administration and the community;
 - Committee membership:
 - Key people on campus
 - Document progress and success;
 - Define responsibilities;

 - Study waste stream:
 - Recycle potential
 - Study utility systems:
 - Elevators – non-hydraulic
 - Lighting conversion

Deep Doo Doo University

Environmental Policy

Deep Doo Doo University will strive to:

- Recycle those wastes that can be recycled and purchase renewable, reusable, recyclable and recycled materials;
- Encourage the use of alternatives and clean-burning fuels in our fleet vehicles;
- Be compliant with all environmental laws and regulations;
- Practice the principles of sustainability by conserving natural resources; meeting present and future human needs while protecting and restoring ecological resilience and integrity;
- Encourage and facilitate research and teaching on sustainability; and
- Support initiatives of students, faculty and staff to achieve our goals (“3rd paragraph”) of being compliant with all environmental laws and regulations.

D³ Environmental Policy

We, D³ University, are committed to being responsible stewards of environment through:

- Using processes, procedures and products that avoid or reduce pollution;
- Conducting business in an manner that protects the environmental health and safety of all campus constituents and the community;
- Striving to be compliant with all environmental laws and regulations; and
- Improving our environmental health and safety by employing assessments to verify and validate our performance.

DDDU will strive to: **Environmental Policy**

- Implement a campus-wide recycling program to reduce campus waste;
- Purchase renewable, reusable, recyclable and recycled materials;
- Limit water consumption on campus by installing water saving devices and encouraging water saving strategies; and
- Reduce the use of toxic substance and the generation of wastes and promote strategies to reuse and recycle those wastes that cannot be avoided.

We, the President and Trustees of DDDU and the DDDU community, affirm our belief that we will strive to be responsible stewards of our natural environment through our educational processes and supporting practices.
