

HARPETH RIVER WATERSHED ASSOCIATION

NISSAN Takes Employees Up the Creek With Paddles

Nissan employees and their families joined the Harpeth River Watershed Association on a family canoe float on the scenic Harpeth River. As part of Nissan's corporate sponsorship with HRWA, staff naturalists organized a family float on Saturday, May 31. Rangers from the Harpeth River State Park joined in the fun and leant their knowledge of the Harpeth.

Participants enjoyed beautiful weather and the group saw a variety of wildlife including

herons, kingfishers, turtles and even a few snakes. The river was cool and inviting and several participants tried their hand on the rope swing or just relaxed in the water. For many it was their first time canoeing the Harpeth, or

anywhere in Tennessee, and they were thrilled at the beauty of this river.

Many thanks to Foggy Bottom Canoes for their help launching canoes and shuttling participants back to their cars. Nissan's corporate sponsorship of HRWA allows us to continue our much needed work to protect and restore the Harpeth River. For information on how your company can become a corporate partner, please contact Pam Davee at 615-790-9767, ext. 104 or pamdavee@harpethriver.org.
