

FLIP CHART OF EMERGENCY PROCEDURES FOR RETAIL FOOD ESTABLISHMENTS

Would your employee in charge know what to do in an emergency situation? Do you have a reference guide for your employees to follow? During an emergency there's not time to think. Your employees must react quickly. Having a reference tool gives guidance quickly and efficiently.

Providing the basic steps to follow will allow your employees to react appropriately and timely. It also gives you peace of mind.

The Flip Chart of Emergency Procedures For Retail Food Establishments provides an easy to read flip chart for quick reference. It provides guidance on a variety of emergency scenarios while also allowing you to personalize each chart by filling in the blanks with local phone numbers and emergency contacts.

The flip chart is printed on heavy weight "made to last" glossy paper and is spiral bound. The emergency topics are easy to read and reference quickly.

Consider having more than one flip chart in each store. One in the front end of the store as well as in the back and potentially in additional areas (one for store manager to have at home) for easy reference in emergency situations.
